

Close your eyes and listen.....

In a minute I'm going to ask you to close your eyes and listen to a story.

It's a special sort of story because some parts are missing.

I will ask questions like

“What can you see?” or “What can you hear?”

You don't need to answer aloud, you just need to think about it in your head and keep your eyes shut.

That means that you will use your imagination and your story will be different from everyone else's!

At the end, you will be able to make a list of all the things you saw and heard!

Wow! How exciting!

Close your eyes, sit very still and imagine you are travelling back in time when dinosaurs lived on the earth. Ready..... 5.4.3.2.1!

You are now standing in woodland, surrounded by tall trees. Look around you what else can you see? Can you see any bushes, perhaps some big stones or even a nest with giant eggs inside?

You then notice a footprint..... a very big footprint..... maybe a dinosaur's footprint? Then you see another one! Follow the footprints deeper into the woods and notice the strange smells and noises. What do you think they are?

As you come out of the woods you hear a loud screeching sound above you. Look up, what can you see? What was that noise? Is there a dinosaur flying above you in the sky? What does it look like?

Now pick up your binoculars and have a look all around you. What can you seemaybe you can see volcanoes? Dinosaurs? birds? Rivers? Waterfalls?

Now say your goodbyes to the dinosaurs as it is almost time to leave. Pick up your rucksack and very quietly count with me 5.4.3.2.1!
